

127 Hours of Moab

This is a 5-day/5-night tour that begins and ends in Salt Lake City. The attractions, activities, accommodations and meals for this tour would be primarily focused on the Active & Adventure Travel Market along with the Self Guided & Independent Travel Market. This tour will include a variety of moderately strenuous outdoor activities, which require participants to be in good physical health and have the ability to hike over uneven terrain. No previous experience necessary, beginners to experienced outdoors enthusiasts will be accommodated on all the activities. The tour can be enhanced for individual travelers by having them fly directly into Moab, using Denver as a gateway, thereby giving them an additional 6 to 8 hours in Moab. This tour can also be modified to include a couple of more days that would take in Edge of the Cedars, Natural Bridges, Mesa Verde and Hovenweep.
